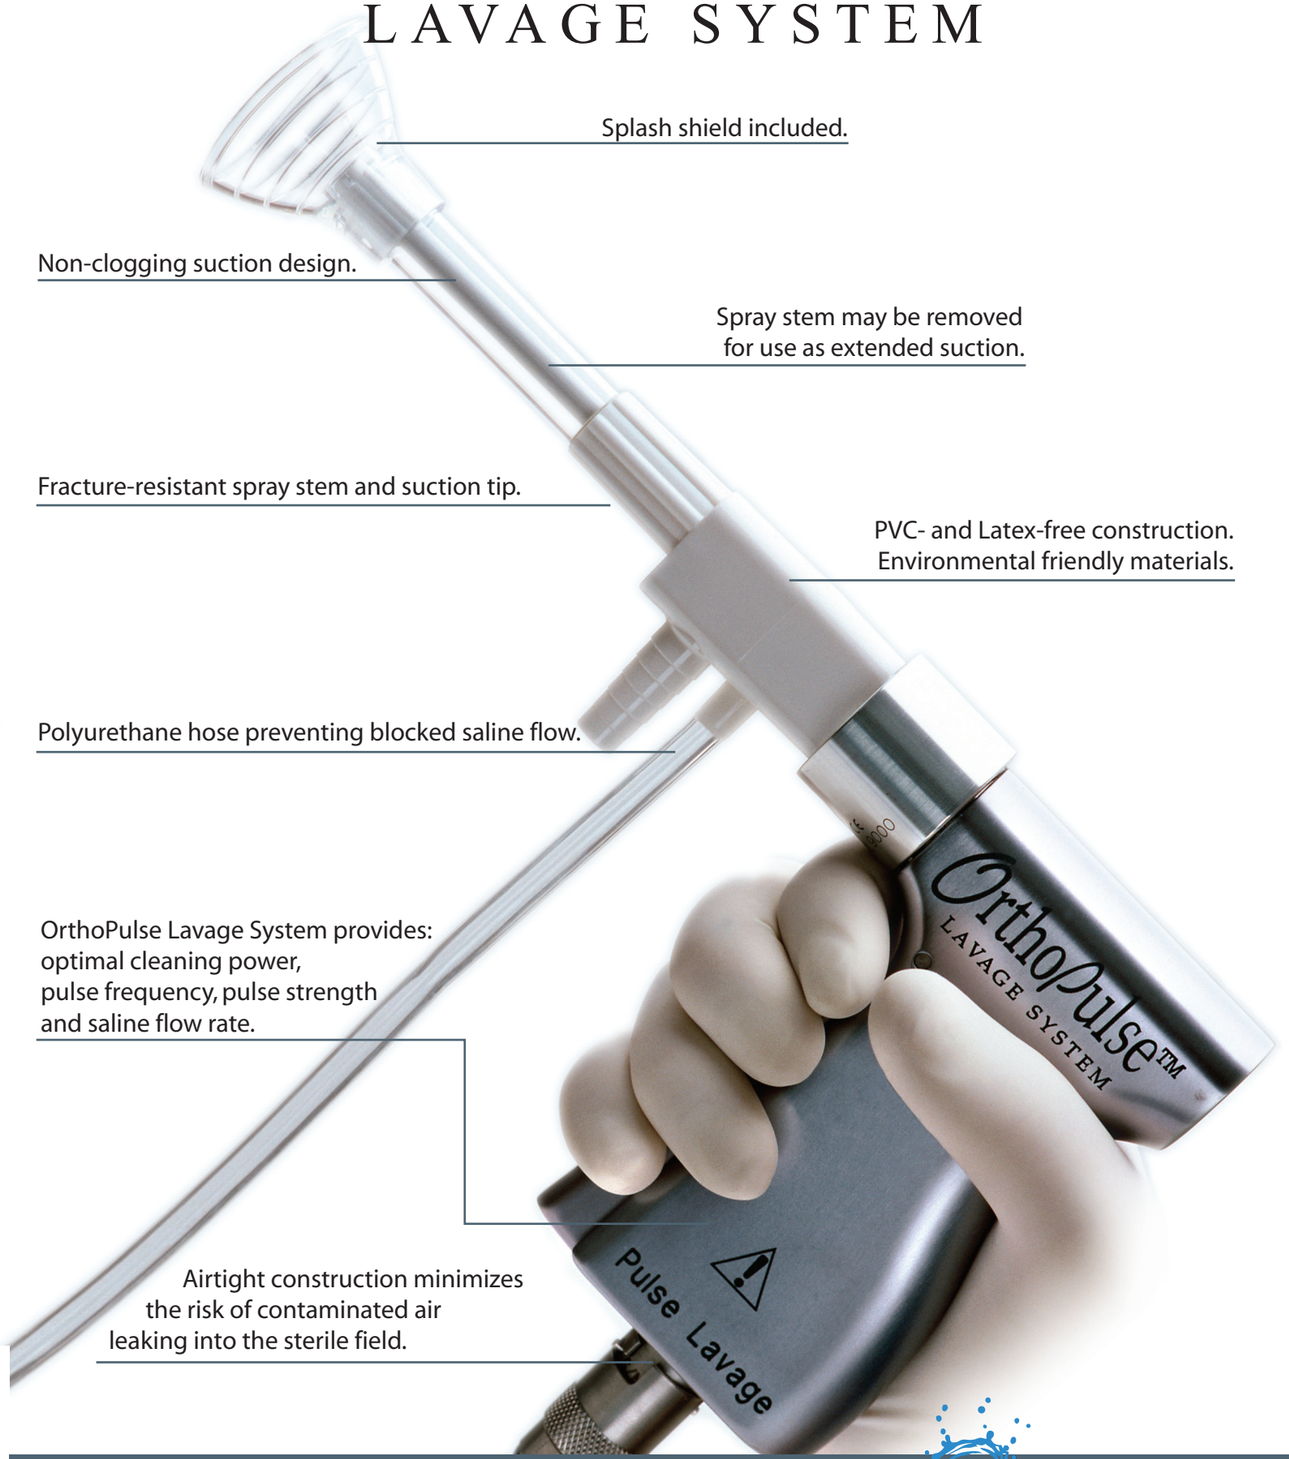
OrthoPulse™

LAVAGE SYSTEM



Splash shield included.

Non-clogging suction design.

Spray stem may be removed for use as extended suction.

Fracture-resistant spray stem and suction tip.

PVC- and Latex-free construction. Environmental friendly materials.

Polyurethane hose preventing blocked saline flow.

OrthoPulse Lavage System provides: optimal cleaning power, pulse frequency, pulse strength and saline flow rate.

Airtight construction minimizes the risk of contaminated air leaking into the sterile field.
