MOBILE FURNITURE
EASY TO MOVE, PRACTICAL AND STURDY

BECKER ICEline
MOBILE FURNITURE BY BECKER!

Good hospital furniture is characterised by its suitability for everyday use. The new BECKER ICEline offers a wide range of tried and tested mobile assistants for all sectors. These are all fully and suitably equipped for their intended use and make work a lot easier.

Using BECKER hook trolleys, your clinical equipment is always in the right place. Classical Becker Equipment will accompany your everyday clinical work reliably for many years. Our mobile BECKER sterile goods components are ideal for the transportation, supply and disposal of sterile and soiled items.

Furthermore, BECKER's selection of instrument and service trolleys provides an important link in the logistics chain of the entire medical and hospital sector. These components can be combined freely, are designed as a modular system and can be easily configured for specific purposes from a number of basic models.

To put it simply: The main objective of the BECKER ICEline is to streamline and optimise OP, outpatient and CSSD processes while ensuring hygiene conditions at all times. For you as a user, this means greater flexibility and convenience in all fields of application.

ICE. ICE. Baby.

CONTENTS

UNBEATABLE ADVANTAGES
WHY BECKER ICELINE?

▶ **IT IS STRONG, ROBUST AND MODULAR**
Ideal prerequisites for effective work assistance.

▶ **NEW DESIGN**
Brings ease, functionality and modern design to your hospital.

▶ **TOP QUALITY AND CLEVER CONSTRUCTION**
Here we stick to our principles: optimally designed and with a sturdy construction to ensure a long service life.

▶ **WASHABLE**
All models with this marking are suitable for use in machine washers.

▶ **STEEL**
We use the material we trust to ensure hygiene and a long service life.
Our signal for the future.

04.

CNS: AN ALLROUND TALENT
OUR FOCUS IS ON SUSTAINABILITY!

CHROM NICKEL STEEL

- pleasant appearance and ideal workability
- durable, ageless and reusable

SUSTAINABILITY IS IMPORTANT TO US!

By using steel, we aim to create durable, robust and economical products without having to constantly create new models.

What's more, thanks to its unique recycling properties, steel can be returned to the material cycle almost indefinitely.

WHAT EXACTLY IS CNS 1.4301?

This is the most commonly-used form of austenitic chrom nickel steel alloys. Its outstanding properties are:

- excellent durability
- corrosion resistance thanks to chromium component
- withstands temperatures up to 600 °C

▶ 12 x ½-StU and ▶ 3 x 1-StU ▶ max. 18 x ½-StU (3 additional chrome nickel steel wire shelves ¼ Pull-out required) ▶ 2 lockable swinging doors ▶ 2 push handles		
4 lockable swivel castors Ø 125 mm	TC07356	1190 x 720 x 1460 mm
or		
4 lockable, washable swivel castors Ø 160 mm, chrome nickel steel	TC07359	1190 x 720 x 1500 mm

	Description	Article number	▭ W/D/H
	Wire shelf ¼ pull-out, chrome nickel steel	160010	326 x 600 x 56 mm
	Identification plate can be hooked into wire storage tray, chrome nickel steel	160030	58 mm length

Special feature of the ¼ pull-out wire shelf
A special proprietary design feature makes this safe and practical to use

The sides of the ¼ pull-out wire shelf form rails which slide over bolts in the trolley frame.
Asymmetrically located counteracting rails reliably prevent the extended shelf from tipping when a (heavy) load is placed on it.

To store a sterile goods container in the trolley, the wire shelf is pulled out as far as the ¼ pull-out will allow, the end of the container is rested on the end of the shelf and is then pushed into the rack, also moving the wire shelf moves back into its original position.

Conversely, in order to remove a container, it must be pulled out towards the user. The wire shelf moves outwards with the container and provides a support so that the container can be lifted by the handles.

Simple and ergonomical !
